

AGREEMENT OF COOPERATION

between

Institute of Metallurgy and Materials Science of Polish Academy of Sciences
and

Frantsevich Institute for Problems of Materials Science National Academy of Science of Ukraine

Institute of Metallurgy and Materials Science of Polish Academy of Sciences (hereinafter referred to as **IMMS PAS**), located at 25 Reymonta str., 30-059, Krakow, Poland, and **Frantsevich Institute for Problems of Materials Science National Academy of Science of Ukraine** (hereinafter referred to as **IPMS NASU**) located 3 Omeliana Pritsaka (Krzhizhanovsky) str., 03142, Kyiv, Ukraine, agree to:

1. Establish the following cooperation agreement for legal basis of scientific cooperation;
2. Perform joint research in investigation of Al/Ni/Ti/Cr/Zr/Fe based composites, powders and coatings from them;
3. Provide the exchange of scientists to carry out the planned joint investigations. Details of the exchange will be determined in separate agreements;
4. Work on the suggestions for joint research projects financed by national or international sources;
5. Prepare the joint publications and facilitate the scientific publications of one side in the journals of other side.
6. This Agreement is intended to set forth the general terms and conditions of the collaboration between the Parties and does not constitute a financial or legally binding obligation, nor does it create rights, liabilities, or obligations enforceable by either Party against the other.

The agreement activities are realized only upon common agreement of IMMS and IPMS NASU and availability of required sources for each particular activity.

This agreement is intended for a five years period and will be effective when it is signed by both parties. The agreement signed in English, in duplicate, both copies being equally valid.
